Zachary Whiting

Full-stack web developer specialized in the MERN stack looking for remote work, certified by the University of Utah Online Coding Bootcamp, having experience with all stages of web development and a proven ability to adapt to and quickly learn new programming languages and APIs.

PROJECTS

Shop-Shop — [Repository](#) | [Application](#) — *React e-commerce site using Redux to manage global state. The Stripe API was also used to handle payment and orders. Built using the MERN stack.*

Book Search Engine — [Repository](#) | [Application](#) — *Google Books API search engine refactored to use GraphQL built with Apollo Server. Built using the MERN stack.*

The Tech Blog — [Repository](#) | [Application](#) — *A CMS-style blog site where developers can publish blog posts and comment on other developers' posts. Built using MySQL, Express, Sequelize, Handlebars, and Node. Follows the MVC paradigm.*

EDUCATION

University of Utah Online Coding Bootcamp — *Certification*

APR 2020 - OCT 2020

An intensive six-month course that teaches the programming languages and skills most commonly used by those in the active workforce to those who afterward become certified and employer-competitive full-stack web developers.

WORK EXPERIENCE

Community Nursing Services, West Valley, UT— *Covid Staff Scheduler and Front office Staff*

Aug 2020 - Nov 2020

- Oversaw the hiring and scheduling of Nurses and Clerks to work at the University of Utah Covid Testing Tents.
